

Coordinated Plan Committee Reviews Final DRAFT Chapter

Tuesday, February 4, 2003. The Implementation Chapter- the last element of the *City and Town of Brillion Coordinated Comprehensive Plan* - was the focus of discussion at this month's meeting. The chapter begins with the following vision:

The widely supported Coordinated Comprehensive Plan is the accepted guide for the area's growth and development. It outlines the cooperative activities necessary to provide both communities with effective and efficient municipal services. It contains the flexibility tools needed to preserve the small town and rural character of the area.

The chapter describes the importance of "*milestone dates.*" Milestone dates are specific dates, after the adoption of the Comprehensive Plan, when the City and Town will review the plan implementation actions to see if objectives have been met and consider additional objectives. The DRAFT Implementation Chapter also clearly defines the Town of Brillion Plan Commission and City of Brillion Planning Commission as the primary groups responsible for the implementation of the plan.

The bulk of the chapter reprints every goal and objective from the previous elements in a series of tables with a milestone dates. OMNNI Associates spent some time reviewing the dates and several minor changes suggested by the City. During the review, the City and Town decided they would like to meet once each year to discuss their implementation successes and challenges. A current, updated copy of this chapter is posted on this web page.

After completing the review of the DRAFT Implementation Chapter, the Coordinated Plan Committee divided into two groups (one from the City and one from the Town) to review the plan maps. Specifically, participants reviewed the *Existing and Future Land Use Maps* for accuracy. Each group also developed a *10-Year Future Land Use Map*.

The final meeting of the Coordinated Plan Committee will be on **Tuesday, March 4, 2003** at the Town of Brillion Municipal Building. The Committee will be reviewing the draft plan at that meeting. All residents are welcome.
