

Coordinated Plan Committee Reviews DRAFT Plan

Tuesday, March 4, 2003. The Coordinated Plan Committee met this month to review the entire draft plan. This meeting was the last meeting in the planning process where the City and Town will meet together. From this point forward the City and Town will work individually to address any additional changes to the plan, set a public hearing, and adopt their plans.

During the meeting, OMNNI Associates briefly reviewed each chapter. Several minor changes were suggested. Copies of all of all plan chapters are posted on this web site. All text changes suggested during the meeting are posted. Proposed map changes will be completed during the week of March 10th and posted to the web site soon thereafter. Please check the web site again to review updated Plan Maps.
