

Village Reviews Future Land Use Map and Chapter

December 7, 2004. This evening the Village Plan Commission held a special session to review the Draft Existing Land Use and Future Land Use Chapters (Chapters 9 and 10) as well as the maps included in these chapters. This meeting was a special make-up session as the Village was not able to participate in the November 9, 2004 meeting held at the Town Hall.

The Village representatives suggested several technical revisions to the *Existing Land Use Map*, including updates to the Village Boundary. The *2025 Land Use Plan Map* was modified slightly to reflect the changes to the *Existing Land Use Map*. In addition, time was spent developing a *10-Year Village Plan Map*.

The next meeting will be a joint Town and Village meeting on January 4, 2005. The topic at this meeting will be Intergovernmental Cooperation. Prior to this meeting invitations will be mailed to representatives from Outagamie County, neighboring towns, the East Central Wisconsin Regional Plan Commission, WisDOT, WDNR, and the local school districts.
