

## **2004 Annual Meeting Includes Discussion About Smart Growth Plan**

**Tuesday, April 13, 2004** – At this year's Annual Meeting, the Plan Commission Report included a presentation by Dennis Bushke (Town Plan Commission Chair), Amy Emery (Town Planning Consultant) and Bob Stadel (Town Planning Consultant).

During the presentation, Ms. Emery presented general information about:

- What is a Plan?
- What is Smart Growth?
- Why Develop A Plan?
- What are the 9 Elements of a Comprehensive Smart Growth Plan?

She then presented a couple slides related to population projections and important topics the plan draft currently addresses. The presentation concluded with an overview of the DRAFT 20-Year Future Land Use Map.

Mr. Stadel distributed two handouts. The first handout listed each of the element visions developed by the Plan Commission and resident participants. The second handout was actually the DRAFT Implementation Chapter from the Plan.

Mr. Bushke invited residents to review the maps on display at the Town Hall. Residents were also encouraged to read the entire plan. Copies are available at the Town Hall and on this web site. A copy will be provided (likely in June) at the Appleton Public Library. The Public Hearing has been scheduled for July 29, 2004. A Plan Commission Meeting has also been set for May 27, 2004 at 7:00 pm at the Town Hall. Residents are encouraged to attend and participate at these meetings.
