

Plan Commission Receives DRAFT Plan

Thursday, October 30, 2003 –

At this month's Plan Commission Meeting, OMNNI Associates presented a complete draft of the *Town of Center Comprehensive Plan*. The draft included copies of all of the elements reviewed by the Town since initiating the planning program in February of 2002.

During the meeting, OMNNI Associates briefly overviewed each chapter of the plan and presented 1 set of large color plan maps. These maps were left at the Town Hall for the Plan Commission to use at upcoming meetings. OMNNI Associates also reminded the Plan Commission of the series of concerns raised by participants at the Intergovernmental Meeting (summarized in the September 2003 Meeting Summary).

The Plan Commission decided to spend the next several months reviewing the entire plan to make sure it accurately addresses the concerns of the community. This effort will include consideration of the issues expressed during the Intergovernmental Meeting.

The next meeting with OMNNI will be held in February 2004 to review any changes and set a public hearing date.

A complete set of the updated chapters presented to the Plan Commission on 10/30/03, including the plan maps, will be posted to this web site in November.

Please check this site again the updates!!!!!!!!!!
