

Village Plan Commission Reviews Draft Future Land Use Map

November 17, 2004. At this meeting, the Village of Slinger Plan Commission had its first opportunity to review the initial *Draft Future Land Use Map*. The purpose of this meeting was a working session for the Plan Commission to review the first draft map. Official public comment sessions and opportunities for neighboring community input will be held after the Village completes a draft map.

The meeting began with a presentation by Amy Emery of OMNNI Associates (the Village's Planning Consultant). Ms. Emery reviewed the status of the planning program; described how the draft map was developed; and explained each of the different land use categories shown. At that point, the Plan Commissioners began reviewing the map and offering several suggested changes.

The map will be revised and presented again to the Plan Commission for their review. A meeting date for that review has not yet been set.
