

TOWN OF CARLTON

COMMUNITY LAND USE SURVEY

Sharing Your Views About the Future

The Town of Carlton is in the process of developing a Smart Growth Comprehensive Plan, as required by State law. To ensure that the Town's plan accurately reflects the issues, concerns, and goals of its residents, this survey is being distributed to every household in the town. **Your views regarding Carlton's future are critical to this planning process.** To have accurate results that are representative of the entire community, a high response rate is needed. For this reason, we hope you will **strongly consider** taking 10-15 minutes to complete this **42-question** survey.

The questions in the survey address issues related to community planning. They are divided into four main sections, including: 1) you and your residence; 2) your perspective on the Town of Carlton; 3) your preferences regarding future development; and 4) your thoughts on options for implementing community decisions. There is space available at the end of the survey to include any additional comments you might have regarding the planning process.

Please answer all questions by completely filling in the circle that corresponds to your answer. Your responses will help guide the Town of Carlton Plan Commission as they develop your Comprehensive Plan. **All of your responses will remain confidential.**

Please mail your completed survey to _____, or drop it off at one of the following locations in town: Carlton Town Hall, _____, _____, etc. **Please return completed survey forms by Friday, July 30, 2004 (prior to the Vision Meeting).**

Thank you for helping with this important community initiative!

OPTIONS FOR IMPLEMENTING COMMUNITY DECISIONS

Communities use a variety of approaches to implement community decisions regarding land use and other community issues. This section asks for your reactions to several tools that could be used or expanded in the Town of Carlton.

Community Plans

34. Which statement best describes your level of awareness about current efforts to develop a Smart Growth Comprehensive Plan for the Town of Carlton? (Select one.)

- Prior to receiving this survey, I was not aware of current planning efforts.
- I have heard about planning efforts, but I don't know very much about them.
- I am generally familiar with the current planning efforts.
- I am very knowledgeable about the current planning efforts.

Some new housing developments protect land by clustering houses together on part of a parcel of land leaving the remainder permanently undeveloped. This approach allows for the same number of homes, but they are built on smaller lots so that environmentally sensitive areas, farmland, or other special features are left undeveloped.

38. To what extent would you encourage or discourage this type of development in the Town of Carlton?

Purchasing temporary or permanent development rights is another approach that some communities use to protect land. In this type of transaction, a landowner voluntarily sells the right to develop a land parcel to an organization that will not develop the land. The landowner sells the development right but retains all other existing ownership rights like farming and hunting.

39. To what extent would you support protecting land by allowing land trusts and other organizations to purchase **permanent** development rights for land in the Town?
